Why should we care about Israel's History?

The Time from the Entering the Promised Land to the 400 Silent Years after returning from Exile and ending with the ministry of Malachai was almost exactly 1000 years. [1405 BC -- 415 BC]

Fun Fact:

If we were to take out the Book of Genesis, the five Poetical Books, and Jonah and Obadiah, which were directed toward Assyria and Edom, respectively, there would be 80% of the books of the Old Testament that are focused on Israel's history and the prophets that spoke directly to the leaders and the people as a part of that history.
